

TWO-HANDED GAME STYLE GRIP, ERGONOMIC DESIGN

The G3 Dual Grip remote is a durable, lightweight, two-handed, game-style grip. Its ergonomic design allows for comfortable extended use, and its molded body eliminates the need for tooling charges. The standard configuration accommodates OTTO's HTL series finger joysticks and P7/P9 series pushbuttons with a selection of button styles and colors. Standard and custom versions of the G3 Dual Grip are ideal for controlling unmanned vehicles, unattended ground sensors and other remote-controlled applications.

**Features:**

- Standard USB interface
- Accommodates HTL series finger joysticks and P7/P9 series pushbuttons
- Lightweight, ergonomic design for comfortable use
- Excellent proportional control
- Switches sealed to IP68S and have excellent EMI/RFI immunity
- RoHS compliant
